

THE PROPAGATOR

- Leaflet of the Fachschaft Physik/Astronomie -
Issue 63 / 03.12.14

ComeCU[☺]

Cinema is awesome! People are awesome! Surprises are awesome! And also[☺] these things can be combined! Therefore, on Monday, 8th of December, we will go at 8:30 p.m. to the WOKI[☺] and watch its English sneak preview. We'll meet at 8:15 in front of the cinema! Hope to see you!

The CHE Ranking

Every now and then there is something called the CHE ranking happening. Its aim is to evaluate university studies. This year, some students between their third and seventh semester have received the corresponding forms. This year, the ZaPF[☺] did not call for a boycott.[☺] Nevertheless, the whole endeavour deserves further scrutinizing. Hence, who received such a letter is strongly advised to read up on it at <http://t.co/8XVBuQIwLA> (in German).

Plenary Meeting[☺]

O come, all ye students, joyful and triumphant! / O come ye to the HISKP. / Come december sixteenth, at eighteen o'clock sharp, / O come to the SR1, O come let us discuss much / O come let us improve it, your studies!

Stud-E-lab

For all you tinkerers there's a playground! In the HISKP, room 153e, you can fiddle with soldering guns and electronics, under the guidance of our knowledgeable Stud-E-Lab team. You'll need a one-time safety instruction, which can be done on Wednesdays between 1 p.m. and 4 p.m. After that you can have access to the keys at the Fachschaft. At the room's door you can find more info and its opening hours.

ZaPF[☺]

As every semester there was a ZaPF, this time up in the North, in Bremen. Here we meet with all other „Fachschaft“s from Germany, Austria and Switzerland to discuss, coordinate and improve our common goal of giving everybody the best physics studies possible. Again we sent a delegation from Bonn to participate with hard work and a lot of fun. More information can be found at www.zapfwiki.de/ (Again, in German...)

Glögg (non-alcoholic beverage) ☺

On Friday, 5th of December, the Fachschaft will offer you a warm welcome into this years Christmas time in the HISKP. From 10 a.m. on we will serve you hot beverages against the cold. Merry Christmas!

Regular's table on the 18.12.

The third talk of our regular's table will be held on the 55th anniversary of the founding of the trust for DESYS[☺], starting 7:15 p.m. Sonja and Chris will talk about burning christmas trees and other fun seasonal stuff. We hope to entertain you well and maybe give you new ideas for more excitations[☺] around this time of the year!

☺ Cinema or mixer event: Companion Upheaval

☺ For other (done) combinations, see Propagator 62!

☺ The cinema at the Bertha-von-Suttner Platz

☺ See below. Uhm. Above. Uhm. To the right. Uh...

☺ Note: They don't ask for participation...

☺ Of all physics and astronomy students

☺ Zusammenkunft aller Physik-Fachschaften (Meeting of all physics „Fachschaft“s)

☺ And maybe also Glühwein (alcoholic beverage)

☺ Deutsches Elektronen-Synchrotron

☺ Maybe physically literally...
